

IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

Patentee : GMEINER
Patent No. : 7,292,910
Issued : November 6, 2007
For : METHOD AND DEVICE FOR MACHINING A WORKPIECE
Dated : June 10, 2008

Commissioner for Patents
P.O. Box 1450

**REQUEST FOR CERTIFICATE OF CORRECTION
UNDER 37 CFR §1.323**

Sir:

Patentee respectfully requests that a Certificate of Correction under 37 CFR §1.323 be issued for the above identified patent with a grammatically correct wording of Claim 1. The Letters Patent received by Patentee's attorneys has a minor typographical error in Claim 1.

According to 37 CFR §1.323, a Certificate of Correction may be issued whenever a mistake of a clerical or typographical nature or of minor character, which was not the fault of the Patent Office, appears in a patent and a showing is made that such mistake occurred in good faith. Patentee submits that the Amendment filed on May 29, 2007 inadvertently deleted the word "method" from claim 1. This was a typographical error and occurred with no intent to deceive the Patent Office. Patentee further submits that correction of Claim 1 under 37 CFR §1.323 does not involve such changes to the patent that would constitute new matter or would require reexamination.

Patentee, therefore, respectfully requests that a Certificate of Correction be issued for the above identified patent properly identifying claim 1.

Patentee encloses herewith the \$100.00 fee as set forth in 37 CFR 1.20(a).

Favorable action is respectfully requested.

Respectfully submitted
for Patentee,

By:

John James McGlew

Enclosed: Certificate of Correction
Fee Sheet in the amount of \$100.00

DATED: June 10, 2008
SCARBOROUGH STATION
SCARBOROUGH, NEW YORK 10510-0827
(914) 941-5600

NOTE: IF THERE IS ANY FEE DUE AT THIS TIME, PLEASE CHARGE IT TO OUR
DEPOSIT ACCOUNT NO. 13-0410 AND ADVISE.

UNITED STATES PATENT AND TRADEMARK OFFICE CERTIFICATE OF CORRECTION

Page 1 of 1

PATENT NO. : 7,292,910
APPLICATION NO.: 10/723,695
ISSUE DATE : November 6, 2007
INVENTOR(S) : Peter GMEINER

It is certified that an error appears or errors appear in the above-identified patent and that said Letters Patent is hereby corrected as shown below:

Please cancel claim 1 and replace it with the following claim:

- 1. A method for machining workpieces, the method comprising:
providing a multiaxial manipulator with a tool moved proportionally by a control unit of the manipulator, said manipulator including a control unit, said tool performing characteristic movements with several degrees of freedom, wherein the degrees of freedom of the tool are
5 evaluated together with the degrees of freedom of axes of the manipulator in real time for moving a tool tip (TCP) in accordance with a predetermined machining geometry and for determining a movement of the manipulator;
providing coordinates of the machining geometry as input into said control unit of the manipulator for a movement control of the tool tip, wherein a movement path of the manipulator
10 is dynamically determined by the control unit in that an instantaneous coordinate difference between the machining geometry and a position and orientation (pose) of the tool tip does not exceed the amplitude of the corresponding characteristic movements of the tool. --
